Carolyn, Haley, or Brad:

Richard VanRheenen and I have reviewed the access request and draft access agreement provided by IWM and we need to request some changes and additions to the access agreement. Can someone please send us a Word version of the draft agreement so we can more easily and quickly revise it? Also, is Amphenol represented by legal counsel? If so, please provide name and contact information so we can copy that person on our correspondence.

Dear Mr. VanRheenen,

EPA appreciates your willingness to allow Amphenol Corp. and its consultant, IWM Consulting Group, access to the 400 North Forsythe St, Franklin IN property for environmental media sampling.

Please see the attached February 12, 2019 access request letter for information that should answer your questions. In the letter, access was requested for late Feb and early March.

Please note that the new requested sampling dates will correspond with the second round of sampling to occur along the sewer lines on North Forsythe Street, likely some time in April.

Mr. Brad Gentry of IWM should be your primary contact. Also, please feel free to contact me with any concerns or remaining questions.

Bradley E. Gentry, LPG

Office: (317) 968-9256  
Fax: (317) 347-9326

Again, we appreciate your cooperation.

Many thanks,  
Carolyn

Good morning, all.

Can someone forward me the access request letters and the proposed scope of work for which access is being requested, including a figure that identifies proposed boring locations?

Best regards,

\*\*\*\* This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. \*\*\*\* \_\_\_\_\_ Hi Haley,

Ryan Clemme reminded us that if Amphenol had problems accessing the 400 N Forsythe property for installing well points (temporary wells), then you would contact the company for the permission.

Amphenol/IWM sent two letter requests but had no response (Brad Gentry from IWM is copied on this email).

Would you please see what you can do about getting permission to install some well points and sample the existing wells on the property?

Much appreciated.

Carolyn
